Foot Constable Fateh Mohammad No.189 of the Ludhiana District. 'On the 16th September 1938, this Foot Constable was a member of a raiding party organised by the Superintendent of Police to capture an extremely dangerous dacoit and murderer who was known to be well armed and was reported to be hiding in a house at Bnairowal. After the village had been surrounded a small party, including Foot Constable Fateh Mohammad, rushed the wall compound of the house in which the dacoit was being sheltered and immediately became exposed to fire from the dacoit at point blank range. Foot Constable Fateh Mohammad was wounded in the finger during this rush but he continued to take an active part in the operations which eventually resulted in the death of the dacoit. In spite of his wound Fateh Mohammad was unflagging and determined in his efforts to assist in the capture of the dacoit and throughout the operations displayed commendable courage and devotion to duty.' This award is made for gallantry under regulation d(i) of the regulations governing the grant of the Indian Police Medal and consequently carries with it the special allowance admissible to officers of and below the rank of Inspector. Together with single photocopy page from the Gazette of India, Saturday, February 25, 1939.

Head Constable No.2105 Sultan Shah (Officiating) North West Frontier Province Police Force, Peshewar District. Gazette of India, No.9, Part 1, Section 1, 01Mar1947, page 254 'On the evening of the 24th October 1946, Offg.Head Constable Sultan Shah, No.2105, of Police Station West Cantonment, Peshewar, who was in multi, noticed one Abdur Rauf, a Mahsud of Kanigurram, T.T., smoking in a tea shop in the Saddar Bazar. He suspected that Abdur Rauf was a smuggler, so he accosted him on some pretext and began to lead him to the police station to be searched. En route to the police station Abdur Rauf made an attempt to escape but was caught by the Head Constable. He then whipped out a revolver and tried to shoot the Head Constable who however, caught hold of the barrel and held on to it fast although Abdur Rauf fired two shots which passed through his clothes. Rauf was eventually overpowered and disarmed with the help of another Foot Constable who reached the spot. This officer displayed conspicuous gallantry and commendable devotion to duty at great risk to his life in arresting an armed and dangerous criminal'. This award is made for gallantry under regulation (d)(I) of the Regulations governing the grant of the Indian Police Medal and consequently carries with it the special allowance admissible to officers of and below the rank of Inspector of Police. With one page of research confirming the above.

Greenwich Hospital School was a school established for the maintenance and education of the children of seamen happening to be slain or disabled. From 1756 the children wore a uniform of 'sailor's dress' with distinctive leather caps. All boys were committed to enter sea service, specifically in the navy after 1848 although later an alternative was the Royal Marines. School life was spartan, regimented and conducted 'at the double' with the boys doing all the chores such as cleaning, cooking, laundry, sewing although this was modified over time. In 1892 the school was renamed the Royal Hospital School.

DSO LG, Third Supplement, p.10155 1/10/17 Citation: 'For services on patrol duties and submarine searching in Home Waters.'

Owen Hugh Knox Maguire, was born in 1886 and entered the Royal Navy as a cadet in 1902. After service off Somaliland as Lieutenant on HMS Philomel he retired 11 July 1910. He re-engaged for WWI and commanded gun-boat, HMS Bustard and was noted for his service during the naval bombardment and attack upon the Belgian coast in co-operation with the Army, 22-July - 19 November 1915. Promoted to Lieutenant Commander 1 April 1916 he served at Felixstowe Air Station which operated flying boat patrols to hunt for submarines.

In his book, *The Spider Web*, Sqn Ldr T D Hallam, refers to 'James The One' or 'Number One' Maguire, who in the course of his duties, ran the Station in the absence of the CO who for long periods was engaged in experimental seaplane research. Lieutenant Commander O H K Maguire was First Lieutenant of the Station and he ran it under naval routine with the time being tapped off on a bell and the ship's company being divided into watches. 'James The One' had a shrewd tongue and was rather feared by the junior officers.

On 14 June 1917 Maguire was awakened at daybreak by the ringing of the telephone, it was a coded message resulting in the duty pilots, Billiken and Dickey scrambled to take-off and after a long search they found a Zeppelin, L43, 600 feet long, looming out of the mist and after a short engagement they destroyed it (DSO 1/10/17). The 'Spider's Web' Seaplane Patrol devised at Felixstowe was highly successful starting on 13 April 1917 and in twelve months to 12 April 1918 flew 605 patrols encompassing 105,300 nautical miles, sighted and reported 47 U-boats, bombed 25 of them and destroyed one Zeppelin.

On the amalgamation of the RFC and the RNAS into the RAF on 1 April 1918, Maguire is recorded as Lieutenant Colonel and on 1 November 1919 he is shown as employed at the Air Ministry as a Temporary Lieutenant Colonel.

With an original document, 'Protection Certificate (Officer)' for Lieutenant Colonel O.H.N.Maguire dated 2 Nov 1919 and a personal letter dated 23 Sept 18 congratulating him on his 'acting rate', written on paper with an embossed letterhead of 'Commander in Chief's Office, The Nore' and the official crest. Also a copy of a Roll for R.N., R.N.V.R., R.N.A.S. which shows, Wg. Commr. Owen H.K.Maguire, D.S.C., R.N.A.S., entitled to Star, Victory, British War Medal. Together with riband bar with MID emblem affixed and matching miniatures, court mounted, the DSO in **18ct gold**, hollow type.

MM Group to Wireless Operator Cpl E. R. Bidwell

An important MM Group of Three to a RFC/RAF ground staff Wireless Operator.

MM LG 16/7/1918 Fourth Supplement p.8311 to 1st CI A/M (A Cpl). E.R.Bidwell, RAF (London, N.). Citation: 'For Bravery in the Field'.

MID: No confirmation.

One of the documents in this lot gives an indication of Bidwell's contribution as a wireless operator to the success of operations. It is a letter from HQ 1st Wing Intelligence RFC to OC 16 Squadron RFC, 17 April 1917 (attention Bidwell, Wireless Operator 43rd Battery); 'The success which our neutralizing fire achieved against the enemy batteries during the recent attack of the First Army, appear to have been largely due to the efficient working of the Zone Call system. This indicates not only good work by pilot and observers in the air, but unremitting care and hard work on the part of your Wireless Officers, Wireless Mechanics and Operators, on whose cooperation this system is based. The very high percentage of Zone calls received at the Batteries, is a fine tribute to the skill and devotion to duty displayed by all concerned. The G.O.C., 1st Brigade, Royal Flying Corps, to whom I submitted a report on this matter, has expressed to me his satisfaction and appreciation of the efforts that all ranks of the wireless personnel are obviously making, and I shall be glad if you will convey his congratulations and my own, to all of them who are under your command. They play a part in the co-operation between the Royal Artillery and the Royal Flying Corps, which is becoming increasingly important as operations develop, and despite the inherent difficulties which are bound to occur, I confidently look to them for the same devotion and skill in the future.'

Ernest Robert Bidwell was born in 1894; joined RFC in August 1915; embarked for overseas service in France and Flanders in 1916 as a wireless operator; his document records show that he was on strength of 35 Sqn, RFC (while attached to XIX Corps Heavy Artillery) and later with 16 Sqn, RFC (while attached to 43rd Battery); his last mustering as a wireless operator was with 25 Sqn, RAF; he discharged on 19 April 1919.

Iran, Bombardment of Majlis Medal. There is no documentation to verify this award. However, LT Col F.B. Prideaux was in the area at the time and was involved in affairs at a diplomatic level so it is feasible that he received the medal in recognition of Britain's support of Ghajar Mohammed Ali Shah's bombardment of Majlis (Iranian parliament). One of these medals was sold at Morton & Eden Auction 26, Collection of the American Numismatic Society, 26 April 2007, lot 1326. It realised £300.

DCM: LG 14/11/1916 p.11105 posn 1, CAG 19/4/1917 p.922 posn 26. Citation: 'For conspicuous gallantry in action. He maintained communications under very heavy fire, displaying great courage and determination.' Recommendation: 'At Romani and Qatia on 4/5th August, 1916. Was responsible for maintaining excellent communications within the Regiment, during the whole of the operations. When not actually working at signalling took his place in the firing line. He was most cool and collected throughout.'

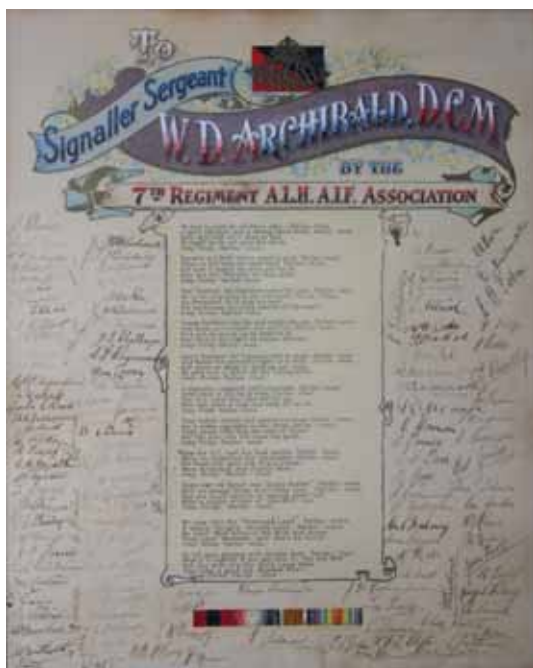

MID: LG 1/12/1916 p.11807 posn 40, CAG 19/4/1917 p.926 posn 48. Mentioned for 'distinguished service rendered' during the period of General A.J.Murray's Command of the Egyptian Expeditionary Forces'.

Sergeant William Daniel Archibald, born in New Zealand and a committed merchant mariner, William Archibald tried to join the Navy after war broke out in 1914, however they did not want him. Not to be deterred, he enlisted in the Australian Army joining up at Rosehill in Sydney on 13 October 1914. Interestingly, he put his occupation down as bushman. He went to training camp at Holsworthy on 17 December 1914 and oddly enough for a seaman he ended up in the Australian Light Horse. On 20 December 1914 he embarked for overseas service aboard HMAT Ayrshire then joining the MEF on Gallipoli on 15 May 1915. He was wounded in action at Anzac on 30 July 1915. He was awarded the DCM on 23 September 1916 for his actions at Romani and Qatia on 4/5 August 1916 and Mentioned in Despatches on 13 October 1916. At war's end he embarked for Australia on 15 November 1918 and was discharged on 24 February 1919.

He then looked at resuming his seagoing career but found that steam had replaced sail. Eventually he adjusted to this change and then proceeded to master the new technology. During this period, he must have mislaid his medals because he put a request to the Government for a replacement of his lost medals (see the next lot). During WWII he once again served but in the Merchant Navy. By this time he was a Master of his ship. Following the war he continued his career. He was in the service of H.C.Sleigh, the petroleum company (Golden Fleece) and given command of the company's giant 27,500 ton super tanker, s.t. 'Hamilton Sleigh'. Captain Archibald was Commodore of the Sleigh fleet when he died on 14 July 1962.

A.I.F. Association, framed under glass (640mm x 540mm) colourful document featuring a centre panel containing the poem, with verses in parody, of 'Mademoiselle from Arminieres' and at the sides and below are the signatures of 126 ALH Association members present on the occasion; page 3 of H.C.Sleigh (Golden Fleece petroleum) Staff News, c.late 1962, obituary tribute.

With research in hard copy and also with a CD of same. Included with this is a complete analysis of the 126 signatories to the Tribute Certificate showing (a) those awarded decorations and awards with indication if WIA [15 names], (b) those mentioned in parody verses in the poem with indication if WIA [4 names], (c) Wounded in action not already mentioned in (a) and (b) [24 names].

MM LG 24/1/19 p1254 posn 12; CAG 23/5/19 p898 posn 97. Recommendation: For bravery and devotion to duty. This man is a member of No.4 Section of this Company, attached to 15th Aust. Inf. Brigade. During the attack on the Villers Bretonneux front on 8th August 1918, he was engaged as linesman and did excellent work in laying and maintaining cables. Owing to the extent of the advance, the number of linesmen available was very limited. Sapper Thomson was out on the lines during the night of 7th/8th and the whole of the 8th August without any rest. His work, particularly during the day, had to be done under heavy enemy shellfire. He never hesitated to go out whenever necessary. He was a member of the Brigade forward Signal party and by his enthusiasm and devotion to duty, was an excellent example to those working with him. It was largely due to his untiring exertions that communications between Brigade and Battalions were successfully maintained throughout the attack.

Copy of correspondence confirming the official status of the medals reissued in 1935. This shows that Archibald completed a Statutory Declaration in respect of the medals on 25 August 1934 declaring that he 'believed that they were inadvertently thrown overboard at sea with some discarded clothing.' He also forwarded thirty shillings to defray cost of the replacement medals. He then received advice from the OIC Base Records stating that the WWI trio would cost fifteen shillings and tenpence and these would be forwarded to him in the next few days. However, the OIC advised that the cost of the replacement DCM was contingent on the current rate of exchange and also asked Archibald for a separate declaration for forwarding to the War Office, London. On 17 January 1935 the Military Liaison Officer at the Australian Embassy in London advised the Department for Defence in Melbourne that a duplicate DCM had been received from the War Office. On 28 March 1935 the replacement DCM was forwarded by OIC Base Records to Archibald.
